- Computer controlled multiple indexing up to 650" max length
- Vertical alignment rollers

COSEN SNC-SERIES BAND SAW

Smart NC-100 (SNC-100) technology provides most of the benefits of NC controlled saws at a mere fraction of the cost. SNC-100 controls are programmable up to 100 different jobs including quantity and length of cut. The control automatically compensates for Kerf loss after data input and requires no manual calculation of number of times to index. Rugged, dependable, and advanced technology, are all words that describe Cosen's C-325NC high production machine which incorporates a massive base, sturdy frame and extremely heavy duty gearbox.
